

Specialty Lines Claim Services

Because sometimes only a specialist will do

The sophisticated nature of specialty insurance products calls for a team of specially skilled claim professionals. Zurich's Specialty Claim team includes attorneys, engineers and nurses, among other specialized professions.

These claim professionals collaborate closely with underwriters, actuaries and risk engineers to ensure consistent service delivery, ease of doing business and a more responsive coverage solution.

Some of the key product areas our Specialty Claim professionals serve include:

- Environmental liability, where our team uses our emergency response and online spill reporting system, which provides tracking of environmental regulatory requirements, coordination of clean-up activities, filing of reports with regulatory authorities and more.
- Lawyer's professional liability claim professionals provide complimentary access to Versus Law Premium Legal Research Plan and have access to the Hinshaw & Culbertson loss prevention advisors.
- Premises liability claim professionals work with customers and Risk Engineering in situations where insured properties need to be brought up to code.
- Excess casualty claim professionals work with customers on handling large losses, including early evaluation and resolution, witness preparation and selecting attorneys.
- Accident & Health claim professionals work with customers to help control the potentially high cost of these types of claims.

- Financial and management liability claim professionals specialize in Errors & Omissions, Directors & Officers, Employment Practices and Fiduciary Liability claim handling.
